

Global University's Graduate School of Theology invites comments and input from students and alumni at any time. We like to know how any given course or overall program of studies has benefited you personally, professionally, and academically. We are also interested in knowing how your studies have impacted you and your ministry or profession on an ongoing basis. We welcome up-to-date photos of our students and alumni in a ministry context and prefer that photos be submitted in high-quality digital format, but a high-quality color print can be used in some cases.
