THREE-YEAR BACHELOR OF ARTS DEGREE

(For students in a qualifying international education system)

The typical North American high school curriculum prepares college-bound students for a four-year bachelor’s degree program. However, many international school systems prepare qualified high school students for the three-year bachelor’s degree program. For this reason, Global University offers 3 three-year bachelor of arts programs through national offices: Bible and Theology, Christian Education, and Intercultural Studies. The student should contact his or her national office to find out if the three-year program is offered in his or her country.

To be accepted into one of these three-year bachelor’s programs, (a) the student must complete the application process, (b) the student must have graduated from a qualifying international educational system that endorses the three-year bachelor’s degree program, and (c) the student must have “A” level certificates or the equivalent.

The curricula for the 96-credit three-year bachelor of arts degrees are given below. A minimum of 32 credits earned through Global University courses is required, 15 of which must be in the student’s major.

Note: This program requires students to complete a Bible and Theology Pretest and Posttest. The pretest will be completed before students request the final exam for their first course. The capstone requirement that includes the posttest will be completed when students are within six months of graduating and submitted before requesting the final exam for their last course. There is no cost for these assessments.
